DDA/CID Liquor License Checklist

PRELIMINARY INFORMATION

- A CID/DDA Liquor License is required for all locations that fall within a Corridor Improvement District or the Downtown Development District. Licenses will be reviewed by the respective District Boards before being recommended to City Commission. To verify which District has jurisdiction over your business location check the Interactive Map available on the Economic Development webpage.

- City Commission approval is required for all Redevelopment Liquor Licenses. Requirements for approval have been mandated in City Commission Policy #300-08.

- Applicants will need to contact one of the two below establishments to file additional required applications based on proposed use of the facility:
  - For primarily on-site consumption an application must be filed with the Kent County Health Department before the City license can be approved.
  - For primarily off-site consumption an application must be filed with the Michigan Department of Agriculture & Rural Development before the City license can be approved.

- Some Liquor License applications require Planning Commission approval before being signed off on by the Zoning department. For more information please contact the Zoning Department directly at 616-456-4100.

- Applications should be submitted as early as possible to assure that they are processed fully before the proposed opening date. Timeline:
  - Application will be reviewed by 7 departments within the City of Grand Rapids, this process can take around a month to complete. DDA/CID boards only meet once a month so applications may take longer depending on when they are submitted.
  - Once the application has been reviewed it must be presented to City Commission for approval. City Commission meets two times a month on City Commission Tuesday.
  - After approval by City Commission the application will be forwarded to the State Liquor License department for processing.
