TO: Top Management 

FROM: Mark A. Washington, City Manager

SUBJECT: **City Manager Administrative Order 2020-13: Continuity of Essential City Services during Extension of Stay Home, Stay Safe Period through June 14, 2020**

We continue to closely monitor the COVID-19 pandemic in collaboration with our partner agencies including the State of Michigan, Kent County Health Department, Kent County and our neighboring cities.

On March 23, Governor Whitmer issued EO 2020-21 establishing a Stay Home, Stay Safe order for the State of Michigan that was effective through April 13, 2020.

In response, we issued City Manager Administrative Order 2020-03 to establish the services the City of Grand Rapids provides as essential public services in recognition of our critical role and responsibility to do our part in the global fight against the spread of COVID-19 at the local level.

We have a responsibility to our residents and to our staff members. It is important to take steps to both protect our community and ensure continuity of essential city services.

On April 9, 2020, Governor Whitmer issued EO 2020-42 rescinding Executive Order 2020-21 and extending the Stay Home, Stay Safe order through April 30, 2020.

On April 24, 2020, the Governor issued EO 2020-59 rescinding EO 2020-42 and extending the Stay Home, Stay Safe order through May 15, 2020, with certain changes.

On May 7, 2020, the Governor issued EO 2020-77 extending the previous Stay Home, Stay Safe order through May 28, 2020 with certain conditions.

On May 21, 2020, the Governor issued EO 2020- 96 which made certain modifications to EO 2020-77.

On May 22, 2020, the Governor issued EO 2020-100 extending the Stay Home, Stay Safe order and Executive Order 2020-69 through June 12, 2020.

City Manager Administrative Order 2020-13 extends City Manager Administrative Order 2020-11, and includes certain modifications based on state and local direction. It is effective immediately and extends through 11:59 PM on June 14, 2020, unless otherwise noted.

Other Services are important to our future as a community and success as an organization but do not meet the criteria to allow in-person work. According to the Governor's Executive Order 2020-96, those services should be maintained to the

Continuity of Operations and Workforce Flexibility

A key part of our continuity of operations response requires workforce flexibility.

Department Directors are empowered to develop plans to maintain service according to their Continuity of Operations Plan. Workforce flexibility does not affect those staff members engaged in directly providing the necessary public services noted above. Elements of these plans could include:

1. Establishing schedules or plans that enable staff members to telecommute and/or use accrued leave as work requirements allow*
2. Establishing rotational schedules should a minimum number of staff be required at your facility/office
3. Establishing virtual/Skype meetings with staff on a regularly scheduled basis

** For employees who are telecommuting, please have them use the payroll code HOMWK for appropriate tracking.*

Labor Relations has established agreements with all bargaining units that allow for
