SCHEDULE D

"The State of Michigan has retroactively rescinded its and the taxing cities participation in the Multistate Tax Compact. As a result, combined reporting is no longer an allowable method on local income tax returns. Each corporation is to file its own return unless electing under Section 141.645 of the City Income Tax Act to file on a consolidated return."

The business allocation percentage formula must be used by corporations with business activity both within and outside the City of Grand Rapids who have not been approved to use the separate accounting method. If a corporation has a property and payroll percentage that is 100% Grand Rapids, you do not have business activity outside the City of Grand Rapids and may not allocate sales. Enter 100% on Schedule D, line 5.

LINE 1a. Enter in column 1 the average net book value of all real and tangible personal property owned by the business, regardless of location, and in column 2 show the net book value of the real and tangible personal property owned and located in the City of Grand Rapids. The average net book value of real and tangible personal property may be determined by adding the net book values at the beginning of the year and the net book values at the end of the year and dividing the sum thus obtained by two.

LINE 1b. Enter in column 1 the gross annual rent multiplied by 8 for all rented real property regardless of location. In column 2 show the gross annual rent multiplied by 8 for rented real property located in the City of Grand Rapids. Gross annual rent refers to real property only, rented or leased during the taxable period, and should include the actual sums of money or other consideration paid, directly or indirectly, by the taxpayer for the use or possession of such property.

LINE 2. Enter in column 1 the total compensation paid to all employees during the year, and in column 2 show the amount of compensation paid to employees for work or services performed within the City of Grand Rapids during the year. If there is no regularly maintained sales force outside of the city, this allocation factor must be 100% for businesses with no other business activity outside the city.

Separate Accounting - The taxpayer may petition for, or the administrator may require, use of the separate accounting method. If such method is petitioned, the administrator may require a detailed statement of the determinations whether the net profits attributable to the city will be apportioned with reasonable accuracy.

Generally, a corporation that is unitary in nature (i.e., has central management, purchasing, warehousing, advertising, etc.) cannot use separate accounting. Taxpayers allocating on any basis other than separate accounting shall include all interest, dividends and other non-operating income to arrive at the total income subject to the allocation percentage.

Taxpayers using separate accounting shall include in income subject to tax a proportionate share of dividends, interest and other non-operating income of the total corporation. This type of income is apportioned to Grand Rapids activity on the same basis as general administrative and overhead costs are apportioned.

SCHEDULE G

LINE 1. Net operating losses carried forward are to be reported on this line. There is no provision for carrying back losses to prior tax years. Carryover losses are to be allocated to Grand Rapids at the percentage of business conducted in Grand Rapids in the year in which the loss was sustained. If all business was not conducted in Grand Rapids in the year in which the loss was sustained, use the business allocation percentage formula to arrive at the deductible portion of the loss. Attach a schedule showing your computation for the amount reported on this line.

LINE 2. Enter on this line the net capital loss carryover applicable to Grand Rapids. Net capital losses sustained by a corporation for periods subsequent to July 1, 1967 may be carried forward in the same manner as under the federal Internal Revenue Code. No deduction will be allowed for capital losses sustained prior to July 1, 1967. If all business was not conducted in Grand Rapids in the year in which the loss was sustained, use the business allocation percentage formula to arrive at the deductible portion of the loss. Attach a schedule showing your computation for the amount reported on this line.

LINE 3. Corporations who are partners in a business activity taxed as a partnership that has business activity in Grand Rapids must enter on this line their portion of the Grand Rapids taxable income or loss from the partnership(s). Attach a schedule showing your computation for the amount reported on this line including the name and taxpayer identification number of the partnership(s).

**RENAISSANCE ZONE DEDUCTION**

The Renaissance Zone designation starts on January 1 of the first year of designation and ends on December 31 of the final year of designation. The deduction is reduced during the last 3 calendar years of a zone's designation. The deduction allowance factor is: 100% for all but the last three years of a zone's designation; 75% for the tax year that is 2 years before the final year of designation; 50% for the tax year immediately preceding the final year of designation; and 25% for the final year of designation. For example, properties in Renaissance within Zones 1 through 6, began having reduced deductions in 2009 (unless a specific property was granted an extension).
