Demographics Statement

- We committed in our Plan to disaggregate all data by race, ethnicity, gender identity and geography to the extent possible.
- Review the statement to understand the type of information that we hope to collect and report on and learn why we are not able to do so right now for all metrics based on data we receive from outside sources, legal processes that require the collection of certain information (binary gender identification) and updates we need to implement in our own data collection processes.
Elements of the Key Metric Dashboard

• Metric Name
• Most recent data point/measure
• Timeframe for the metric
  • Often calendar or fiscal (July 1 – June 30) year
• Status
  • Goal Met
  • Near Goal
  • Measuring (Goal not established yet)
  • Goal Not Reached

“We would be thrilled if all of our clients implemented our software like Grand Rapids. They've been doggedly focused on the end product and a meaningful set of reports that will provide elected officials and staff the information they need to make decisions. They asked the right questions, took control of the software implementation, and were effective at institutionalizing the use of the software. Everyone has been 100% committed.“
