Homeless Outreach Team (HOT) Update

PURPOSE: To provide education and guidance around the issues which could lead to potential spread in an extremely vulnerable population

- The HOT team (Homeless Outreach Team) is in the very formative stages
- HOT will be responding to the issues relating to the pandemic which surround social distancing and group gatherings which exceed recommendations or orders
- **TEAM:** one police officer and one fire fighter will be directly interacting with the shelters and social service agencies to provide key assistance during this emergency
- In the future, the team would ideally become more robust by adding both a social worker partner and mental health component
- This team will present data based on interactions, complaint responses and make recommendations on actionable items which will create positive changes
