CITY OF GRAND RAPIDS, MICHIGAN

City of Grand Rapids Population

The City's 1970, 1980, 1990, 2000 and 2010 census populations are as follows:

<u>Year of Census</u>	<u>Population</u>	<u>Percent Change</u>
1970	197,649	0.23%
1980	181,843	(8.00)
1990	189,126	4.01
2000	197,800	4.59
2010	188,040	(4.93)

Source: U.S. Department of Commerce-Bureau of Census.

Form of Government

The City was first incorporated as a village in 1838. In 1850 it was incorporated as a city under a mayor-council form of government, and remained that way until 1916, when the commission-manager form of government was adopted under the authority of the Home Rule City Act (Michigan Public Act 279 of 1909, as amended). The present commission is composed of seven members. Two members are elected on a non-partisan basis from each of the City's three wards, and one member is elected at-large on a non-partisan basis to serve as Mayor. The Comptroller is also elected at-large on a non-partisan basis. The City Manager, chief administrative officer of the City, is appointed by the City Commission and serves at its pleasure. The City Commission meets on Tuesdays in accordance with a schedule determined annually.

CITY TAXATION AND LIMITATIONS

Property Valuations

The value of all taxable real and personal property in the City as of December 31 of each year is assessed by the City and then equalized by Kent County (the "County") and again by the State. The value as equalized by the State becomes the state equalized valuation ("State Equalized Valuation" or "SEV"). Property taxpayers may appeal their property values to the City Assessor, the City's Board of Review and ultimately to the State Tax Tribunal. Estimated revenue losses related to outstanding appeals are accrued annually at the end of each fiscal year and are not anticipated to significantly impact the financial condition of the City.

Article IX, Section 3, of the Michigan Constitution limits the proportion of true cash value at which taxable property can be assessed to a percentage not to exceed 50%. The Michigan Legislature has provided that taxable property shall be assessed at 50% of its true cash value. The Michigan Legislature or the electorate may at some future time change the percentage of true cash value at which property is assessed.

In 1994, the electors of the State approved an amendment to the Michigan Constitution permitting the Michigan Legislature to authorize ad valorem (real and personal) property taxes ("Ad Valorem Taxes") on a non-uniform basis. The legislation implementing this constitutional amendment added a new measure of property value known as taxable value ("Taxable Value"). Since 1995, taxable property has two valuations, SEV and Taxable Value. Property taxes are levied on Taxable Value. Generally, the Taxable Value of property is the lesser of (a) the Taxable Value of the property in the immediately preceding year, adjusted for losses, multiplied by the lesser of the inflation rate or 5%, plus additions, or (b) the property's

current SEV. Under certain circumstances therefore the Taxable Value of property may be different from the same property's SEV.

When property is sold or transferred, Taxable Value is adjusted to the SEV, which under existing law is 50% of the current true cash value. The Taxable Value of new construction is equal to current SEV. Taxable Value and SEV of existing property are also adjusted annually for additions and losses.

Ad Valorem Taxable Value does not include any value of tax-exempt property (e.g., governmental facilities, churches, public schools, etc.) or property granted tax abatement under Act 198, Public Acts of Michigan, 1974, as amended ("Act 198"), Act 146, Public Acts of Michigan, 2000, as amended ("Act 146") and Act 147, Public Acts of Michigan, 1992, as amended ("Act 147"). For its fiscal year ended June 30, 2015, the equivalent effect of the abatements granted under Act 198, Act 146 and Act 147 is to understate the City's Taxable Value by \$35,974,581 or 0.82%. See the following table and "CITY TAXATION AND LIMITATIONS -- Tax Abatements" herein. Including the Equivalent Taxable Value (hereinafter defined) of these properties, the City's total Taxable Value ("Total Taxable Value") has decreased \$360,375,469 or approximately 7.57% between the fiscal years ended or ending June 30, 2011 through 2015.

Per Capita Total Taxable Value for the Fiscal Year Ended June 30, 2015 (3)..... \$23,402,62

- (1) Includes the value of qualified property located within the City's Renaissance Zone (the "Zone") which was created pursuant to the provisions of Act 376, Public Acts of Michigan, 1996 ("Act 376"), as amended. Act 376 was designed to stimulate private investment within the Zone through the abatement of certain property, income and business taxes. For the fiscal year ended June 30, 2015, the Taxable Value of property qualified for the benefits of the Zone program totaled \$85,385,420. As of fiscal year ended June 30, 2015, exemptions for most of the City's Zone designated property have been phased out according to the schedule created when the designation was awarded. For the remaining properties in the City's Zone, property and income tax exemptions will be reduced to 0% beginning in the years 2013 through 2025, depending on the particular development agreement.
- (2) At the full tax rate. See "CITY TAXATION AND LIMITATIONS – Tax Abatements" herein.
- (3) Based on the City's 2010 Census of 188,040.

Source: City of Grand Rapids

Aside from its use in determining Taxable Value for the purpose of levying Ad Valorem Taxes, SEV is important because of its role in the spreading of taxes between overlapping jurisdictions, the distribution of various State aid programs, State revenue sharing and in the calculation of legal debt limits.

Ad Valorem SEV does not include any value of tax-exempt property (e.g., hospitals, governmental facilities, churches, public schools, etc.) or property granted tax abatement under Act 198, Act 146 or Act 147. The effect of the abatements granted under Act 198, Act 146 and Act 147 is to understate the City's Ad Valorem SEV for its fiscal year ended June 30, 2015 by \$72,961,200 or 1.56%. Including the SEV of these properties, the City's total SEV ("Total SEV") has decreased \$576,223,550 or approximately 10.94% between the fiscal years ended June 30, 2011 through 2015. See the following table and "CITY TAXATION AND LIMITATIONS – Tax Abatement" herein.

Tax Abatements

The City's Ad Valorem Taxable Value does not include the value of certain facilities which have temporarily been removed from the Ad Valorem Tax Roll pursuant to Act 198. Act 198 was designed to provide a stimulus in the form of significant tax incentives to industrial enterprises to renovate and expand aging facilities and to build new facilities. Under the provisions of Act 198, a local governmental unit (i.e., a city, village or township) may establish plant rehabilitation districts and industrial development districts and offer industrial firms certain property tax incentives or abatements to encourage restoration or replacement of obsolete facilities and to attract new facilities to the area.

An industrial facilities exemption certificate granted under Act 198 entitles an eligible facility to exemption from Ad Valorem Taxes for a period of up to 12 years. In lieu of Ad Valorem Taxes, the eligible facility will pay an industrial facilities tax (the "IFT Tax"). For properties granted tax abatement under Act 198 there exists a separate tax roll referred to as the industrial facilities tax roll (the "IFT Tax Roll"). The IFT Tax for an obsolete facility which is being restored or replaced is determined in exactly the same manner as the Ad Valorem Tax; the important difference being that the value of the property remains at the Taxable Value level prior to the improvements even if the restoration or replacement substantially increases the value of the facility. For a new facility the IFT Tax is also determined the same as the Ad Valorem Tax but instead of using the total mills levied as Ad Valorem Taxes, a lower millage rate is applied. For abatements granted after 1993, this millage rate equals 1/2 of all tax rates levied by other than the State plus 0%, 50% or 100% of the State's Education Tax (as determined by the State Treasurer).

The City's Ad Valorem Taxable Value also does not include the value of certain facilities which have been temporarily removed from the Ad Valorem Tax Roll pursuant to Act 146. Act 146 was designed to provide a stimulus in the form of significant tax incentives to renovate certain blighted, environmentally contaminated or functionally obsolete commercial property or commercial housing property ("OPRA Properties.") Under the provisions of Act 146, a local governmental unit (i.e. a city, village or township) may establish obsolete property rehabilitation districts and offer tax abatements to encourage rehabilitation of OPRA Properties.

An obsolete property rehabilitation certificate granted under Act 146 entitles an eligible facility to an exemption from Ad Valorem Taxes on only the building for a period of up to 12 years. A separate tax roll exists for OPRA Properties abated under Act 146 called the "Obsolete Properties Tax Roll." An "Obsolete Properties Tax" is calculated using current year ad valorem millages times the taxable value of the obsolete building for the tax year immediately prior to the effective date of the obsolete property

rehabilitation certificate except for the annual school operating and State Education Tax millages which are charged at the Ad Valorem Tax rate on the current Taxable Value of the building.

Another property tax abatement program used by the City is authorized under Act 147, which is known as the Neighborhood Enterprise Zone Act. Act 147 allows specific local governments to create "Neighborhood Enterprise Zones". The goal of the Neighborhood Enterprise Zone ("NEZ") abatement program is to promote home ownership and investment in areas of the City where the greatest impact would occur and where such improvements may trigger additional investment in adjacent neighborhoods.

There are two types of available NEZ property tax abatements: one for the rehabilitation of an existing property and one for new construction. Both types of NEZ property tax abatements apply only to residential properties. The holder of an NEZ Certificate does not pay ad valorem property taxes related to the taxable value of the NEZ residence. Instead, the property owner pays the Neighborhood Enterprise Zone Tax (the "NEZ Tax") which is equal to one half of the State's average rate of taxation. For FY2015, the NEZ Tax rate was 16.7650 mills for a new Principal Residence Exemption ("PRE") facility and 25.7350 mills for a new non-PRE facility. The amount of the NEZ Tax on a rehabilitated NEZ residence is determined each year by multiplying the Taxable Value of the residence for the tax year immediately preceding the effective date of the NEZ Certificate by the total ad valorem millage rate. Land value and special assessments are not eligible for the NEZ property tax abatement. The effective date for the tax abatement is dependent upon commencement of construction and when the residence is substantially completed. NEZ Certificates are in effect for up to 12 years. The continuance of a NEZ Certificate is conditional upon being current on payment of all taxes and any other debts owed to the City on an annual basis.

The City has established goals, objectives and procedures to provide the opportunity for residential, industrial and commercial development and expansion. The SEV of properties that have been granted tax abatement under Act 198, Act 146 and Act 147, removed from the Ad Valorem Tax Roll and placed on the IFT Tax Roll or Obsolete Properties Tax Roll or in an NEZ roll totaled \$72,961,200 for the fiscal year ended June 30, 2015. The IFT, Obsolete Properties and NEZ taxes paid on these properties are equivalent to Ad Valorem Taxes paid on \$35,974,581 of Taxable Value at the full tax rate (the "Equivalent Taxable Value"). Upon expiration of the industrial facilities exemption, obsolete property rehabilitation and NEZ certificates the current equalized valuation of the abated properties will return to the Ad Valorem Tax Roll as Taxable Value.

Personal Property Tax Exemptions

Act 328, Public Acts of Michigan, 1998, as amended, ("Act 328") allows certain eligible communities to designate specific existing areas as "eligible distressed areas" in which "new personal property" of "eligible businesses" would be exempt from Ad Valorem property taxation. The City is one of the eligible communities. With the approval of the State Tax Commission, the City designated certain areas as eligible distressed areas. Under Act 328, the City has exempted personal property related to sixteen agreements ranging from five years to up to twelve years for the 2014 (FY 2015) assessment roll. To date, through roll year 2014 / FY 2015 it is estimated that personal property assessed value in the amount of \$31,228,400 is currently eligible for PA 328 abatements.

Personal Property Tax Reform

In December 2012, the legislature enacted and the Governor signed a number of acts that set the groundwork for personal property tax reform. In December 2013, amendments to some of those acts were enacted to clarify exemptions from personal property taxes beginning in 2014 for taxpayers with industrial or commercial personal property the true cash value of which totals \$80,000 or less within any city or township and beginning in 2016 for eligible manufacturing personal property put in service after 2012 or that has been in service for at least 10 years. In March 2014, the legislature amended remaining provisions of the 2012 legislation to provide 100% reimbursement for local governments for lost revenues due to the new personal property tax exemptions. The reimbursement is to be made from use taxes to be set aside in statutorily prescribed amounts for distribution by a local community stabilization authority pursuant to a statutory formula. The funds set aside will not require and cannot be affected any executive or legislative actions. The formula for distribution of replacement revenues is generally based on the personal property tax receipts a local government has in 2013, so the replacement revenues generally will not grow in accordance with the addition of manufacturing or other personal property. The entire exemption and revenue replacement plan was approved by electors of the state at the August 5, 2014 state primary election resulting in the above referenced legislation becoming effective.

Future Tax Reform Proposals

The ultimate nature, extent and impact of other tax and revenue measures, which are from time to time considered, cannot currently be predicted. No assurance can be given that any future legislation or administrative action, if enacted or implemented, will not adversely affect the market price or marketability of bonds, or otherwise prevent Bondholders from realizing the full current benefit of an investment therein. Purchasers of City bonds should be alert to the potential effect of such measures upon the bonds, the security therefor, and the operations of the City, its Sanitary Sewer System, its Water supply System, and its various authorities.

Property Taxes

Michigan statutes provide that all ad valorem taxes are to be levied upon Taxable Value. The City's ability to tax is limited by the State Constitution, State statutes and the City Charter. Home rule cities, such as the City, are permitted by Act 279, Public Acts of Michigan, 1909, as amended (the "Home Rule City Act"), to authorize by their charters a maximum levy of 20 mills for operating purposes. The City's Charter authorizes a maximum levy of 6.4100 mills for operating purposes (including the library) and 0.3950 mills for additional library purposes limited to twenty years commencing July 1, 1998. A mill is equal to \$1.00 for each \$1,000 of Taxable Value.

Pursuant to Act 298, Public Acts of Michigan, 1917, as amended, home rule cities may authorize an additional levy of up to three mills for refuse collection and disposal. Home rule cities are also authorized to levy up to one mill (plus one additional mill with voter approval) for library purposes pursuant to Act 164, Public Acts of Michigan, 1877, as amended. Act 359, Public Acts of Michigan, 1925, as amended, also authorizes home rule cities to levy up to \$50,000 for promotional expenses.

For its fiscal year ended June 30, 2015, the City levied 6.1798 mills for operating purposes, 1.6000 mills for refuse collection and disposal, 0.0115 mill for promotion purposes, 0.3805 mill for library capital improvement purposes and 0.9800 mill for public parks facilities approved by the electorate for a period of seven years (see "CITY TAXATION AND LIMITATIONS – State Limitations on Property Taxes" herein). In addition, the electorate may authorize the issuance of general obligation bonds or other obligations which pledge the full faith and credit and unlimited taxing power of the City. See "CITY TAXATION AND LIMITATIONS" and "CITY DEBT" herein.

State Limitations on Property Taxes

In 1978, the electorate of the State passed an amendment to the State Constitution (the "Headlee Amendment") which placed certain limitations on increases of taxes by the State and political subdivisions from currently authorized levels of taxation. The Headlee Amendment and the enabling legislation, Act 35, Public Acts of Michigan, 1979, as amended, may have the effect of reducing the maximum authorized tax rate which could be levied by a local taxing unit. Under the Headlee Amendment's millage reduction provisions, should the value of taxable property, exclusive of new construction, increase at a percentage greater than the percentage increase in the Consumer Price Index, the maximum authorized tax rate would be reduced by a factor which would result in the same maximum potential tax revenues to the local taxing unit as if the valuation of taxable property (less new construction) had grown only at the national inflation rate instead of the higher actual growth rate. Thus, should taxable property values rise faster than consumer prices, the maximum authorized tax rate would be reduced accordingly. However, should consumer prices subsequently rise faster than taxable property values, the maximum authorized tax rate would be increased accordingly, but never higher than the statutory or charter tax rate limitations.

The Headlee Amendment does not limit taxes for the payment of principal of and interest on the bonds or other evidences of indebtedness outstanding at the time the Headlee Amendment became effective or which have been approved by the electorate of the State or such political subdivision. For the fiscal year ended June 30, 2015 the Headlee Amendment had the effect of reducing the City's authorized millages as follows:

**City of Grand Rapids, Michigan
Maximum Property Tax Rates
Fiscal Year Ended June 30, 2015**

<u>Millage Classification</u>	<u>Millage Authorized</u>	<u>Millage Rate As Permanently Reduced by Headlee</u>	<u>Current Year Millage Reduction Fraction</u>	<u>Maximum Allowable Millage</u>
Operating (1).....	6.4100	6.1798	1.0000	6.1798
Refuse Collection and Disposal ..	3.0000	2.7711	1.0000	2.7711
Promotional (2).....	\$50,000			0.0115
Library (3).....	0.3950	0.3805	1.0000	0.3805
Parks (4).....	0.9800	0.9800	1.0000	0.9800

- (1) For the fiscal year ended June 30, 2015, includes operating levies allocated for general, capital reserve and library purposes of 2.8570, 1.2500, and 2.0728 mills respectively.
- (2) Estimated levy intended to generate approximately \$50,000 annually.
- (3) In 1997 the City's electorate amended the City's Charter to increase its operating levy by 0.3950 mills for a period of twenty years commencing July 1, 1998 to be allocated and used solely for the City's public library facilities.
- (4) In 2013, the City's electorate amended the City's Charter to increase its operating levy by 0.9800 mills for a period of seven years commencing July 1, 2014 to be allocated and used solely for the City's public parks facilities.

Property Tax Rates

As defined under "Property Taxes" herein, a mill is equal to \$1.00 for each of \$1,000 of Taxable Value. The City is currently authorized to levy annually 6.1798 mills for operating purposes or a maximum of \$6.1798 for each \$1,000 of Taxable Value. Excluding taxes levied by other units of government, the City's property tax rates, expressed as a dollar for each \$1,000 of Taxable Value, for the fiscal years ended June 30, 2011 through 2015 are shown below. See "CITY TAXATION AND LIMITATIONS-State Limitations on Property Taxes" herein.

City of Grand Rapids, Michigan
Property Tax Rates
Fiscal Years Ended June 30, 2011 Through 2015

<u>Levy</u> <u>July 1</u>	<u>Fiscal Year</u> <u>Ended June 30</u>	<u>Operating (1)</u>	<u>Other (2)</u>	<u>Library (3)</u>	<u>Parks(4)</u>	<u>Total</u>
2010	2011	\$6.1798	\$1.8108	\$0.3805	\$0	\$8.3711
2011	2012	6.1798	1.8110	0.3805	0	8.3713
2012	2013	6.1798	1.6113	0.3805	0	8.1716
2013	2014	6.1798	1.6116	0.3805	0	8.1719
2014	2015	6.1798	1.6115	0.3805	0.9800	9.1518

- (1) Includes operating levies allocated for general, capital reserve and library purposes.
 - (2) Includes refuse collection and disposal as well as promotional levies. See "CITY TAXATION AND LIMITATIONS – Property Taxes" herein.
 - (3) In 1997 the City's electorate amended the City's Charter to increase its operating levy by 0.3950 mills for a period of twenty years commencing July 1, 1998 to be allocated and used solely for the City's public library facilities. Headlee required millage rate rollbacks have reduced the authorized levy to 0.3805 mills.
 - (4) In 2013, the City's electorate amended the City's Charter to increase its operating levy by 0.9800 mills for a period of seven years commencing July 1, 2014 to be allocated and used solely for the City public parks facilities. Since 2014 is the first year this levy has been in effect, there are no Headlee-required millage rate rollbacks.
- Source: City of Grand Rapids

In addition to the City's property tax rates, businesses and residents of the City must pay property taxes to other units of local government. A State Education Tax of 6.0000 mills (the "SET") is levied by the State on all real property. To be eligible for state school aid, a local school district is also required to levy not more than the lesser of 18.0000 mills or the number of mills levied in 1993 for school operating purposes on non-homestead/non-PRE property. These property taxes are in lieu of those previously levied for local school district operating purposes.

Beginning with the 2008 tax year, the Michigan Business Tax (the "MBT") exempts industrial personal property from the assessment of the 6.0000 mills SET and of the 18.0000 mills local school district operating millages. Commercial personal property is assessed the 6.0000 mills SET, but the MBT exempts commercial personal property from the assessment of 12.0000 mills of the 18.0000 mills local school district operating millages. Utility personal property is assessed the full 6.0000 mills SET and the full 18.0000 mills local school district operating millages.

Total rates, expressed as a \$1.00 for each \$1,000 of Taxable Value, for the City's fiscal years ended June 30, 2011 through 2015, are as follows:

City of Grand Rapids, Michigan

- (1) *Principal Residence Exemption ("PRE")/Homestead Property* means a dwelling or unit in a multiple-unit dwelling subject to ad valorem property taxes that is owned and occupied as a principal residence by the owner of the dwelling or unit. PRE/Homestead includes all unoccupied property classified as agricultural adjacent and contiguous to the home of the owner that is not leased or rented by the owner to another person if the gross receipts of the agricultural or horticultural operations, if any, exceed the household income of the owner. If the gross receipts of the agricultural or horticultural operations do not exceed the household income of the owner, the homestead includes only 5 acres adjacent and contiguous to the home of the owner. PRE/Homestead includes a life care facility registered under the Living Care Disclosure Act, Act 440, Public Acts of Michigan, 1976, as amended. PRE/Homestead also includes property owned by a cooperative housing corporation and occupied as a principal residence by tenant stockholders.
- (2) In November, 2013, the City's electorate amended the City's Charter to increase its operating levy by 0.9800 mills for a period of seven years commencing July 1, 2014 to be allocated and used solely for the City's public parks facilities.
- (3) In August, 2014 the County of Kent electorate approved the renewal of 0.3244 mill for Senior Citizen Services, along with an increase of 0.1756 mill, for a total authorized millage of 0.5000 mill for Senior Citizen Services. In November, 2014 County of Kent voters approved the creation of a 0.0500 mill for veterans' services. The millage will be assessed for eight years and began with the December 1, 2014 levy.
- (4) Debt and sinking fund millage. The Grand Rapids Public Schools is the largest school district within the City. Portions of other school districts overlap the City's boundaries. Of those which do, the total PRE/Homestead local school millage rates for the fiscal year ended June 30, 2015 ranged from \$3.55 to \$8.80 for each \$1,000 of Taxable Value. The total tax rates for property owners in other school districts would change accordingly.

Property Tax Collections

The City's fiscal year begins on July 1. Real and personal property taxes are due on July 1 and are payable without penalty until July 31. Property owners who have not paid their property taxes on or before July 31 are required to pay interest and penalties on, and collections fees with respect to, such unpaid taxes.

Personal property taxes that are delinquent as of March 1 following the City’s July 1 levy are collected by the City (“Delinquent Personal Property Taxes”). The City may bring suit to collect Delinquent Personal Property Taxes. The City may also seize the personal property to satisfy the tax lien thereon. The City’s Delinquent Personal Property Taxes are a small percentage of the tax roll. The City’s delinquent property taxes are removed from the tax roll after five years and represent an average of less than \$20,000 per year.

Real property taxes that are delinquent as of March 1 following the City's July 1 levy are turned over to Kent County (the "County") for collection ("Delinquent Real Property Taxes"). Such Delinquent Real Property Taxes are subject to additional penalties and interest charges by the County. Unless the Delinquent Real Property Taxes are paid within approximately 25 months from the date of delinquency, the underlying property may be foreclosed upon and sold at public auction.

The County has historically purchased the City's Delinquent Real Property Taxes from its delinquent tax payment fund. In return, the City has assigned the County all amounts due from the taxpayers with respect to such Delinquent Real Property Taxes. As a result of these purchases the City's real property tax receipts have approached 100%.

The continued purchase of Delinquent Real Property Taxes may be dependent upon the sale of delinquent tax notes by the County for that purpose. There is no assurance that the County will issue such delinquent tax notes or purchase such Delinquent Real Property Taxes in any fiscal year. If the Delinquent Real Property Taxes are not purchased by the County, any Delinquent Real Property Taxes collected by the County are remitted to the City within a month following the County's collection those past due taxes. The following table reflects the actual property tax collections for the City's fiscal years ended June 30, 2011 through 2015.

**City of Grand Rapids, Michigan
Property Tax Collections
Fiscal Years Ended June 30, 2011 Through 2015**

<u>July 1 Levy</u>	<u>Fiscal Year Ended June 30</u>	<u>City Tax Levy (1)</u>	<u>Collections to March 1 Following Levy (2)</u>	<u>Percent Collected</u>
2010	2011	\$38,191,675	\$36,428,727	95.4%
2011	2012	37,456,094	35,576,860	95.0
2012	2013	35,786,676	34,299,635	95.8
2013	2014	35,010,467	33,635,522	96.1
2014	2015	39,110,022	37,771,211	96.6

- (1) Excludes taxes on properties granted tax abatement under Act 198, Act 146 and Act 147. See "CITY TAXATION AND LIMITATIONS - Property Valuations" and "CITY TAXATION AND LIMITATIONS - Tax Abatement" herein.
- (2) Excludes real property taxes turned over to Kent County for collection March 1.
- (3) In November, 2013, City voters amended the City's Charter to increase its operating levy by 0.9800 mills to support the repair and rehabilitation of existing park equipment and facilities; and opening the City's swimming pools for longer seasons. The term of the temporary millage is seven years, commencing with the summer 2014/FY2015 property tax levy. The amount of 2014/FY2015 City tax levy related to the new Parks Millage is \$4,221,781.

Source: City of Grand Rapids

Pursuant to Act 197, Public Acts of Michigan, 1975, as amended; Act 281, Public Acts of Michigan, 1986, as amended; Act 381, Michigan Public Acts, 1996, as amended; Act 450, Public Acts of Michigan, 1980, as amended; the City has established authorities which capture property tax increments pursuant to these acts. The City's general operating revenues reflected in its audited financial statements are net of such capture.

Real Estate Market Developments

There have been fluctuations in the market prices of real estate in the United States since the beginning of calendar year 2006, resulting in, in some cases, a slowing in appreciation and declines in residential and other real property assessed valuations. Declines in the assessed market valuation of any individual residential or non-residential real property results in a reduction in the individual SEV for that property. If the SEV of an individual parcel of real property falls below the Taxable Value for that real property for the same year, the reduced SEV will become the Taxable Value for that real property. All such individual reductions have, in the aggregate, negatively affected the City's total SEV and total Taxable Value. Each mill, then, that the City levies against the reduced Taxable Value produces less property tax receipts than the same mill levied in the prior year. The City is aware of the consequences of this situation and has been adjusting City revenues and expenditures as property tax receipts have fluctuated.

Taxpayers with Largest Valuations

The taxpayers with the largest valuations in the City, their principal product or service, Total Taxable Value and percent of City's Total Taxable Value for the fiscal year ended June 30, 2015 are as follows:

**City of Grand Rapids, Michigan

City Income Tax

In 1967, the City's electorate approved a two mill reduction in the City's maximum authorized general operating millage and the implementation of an income tax imposed on income earned within the City regardless of the residence of the taxpayer and on all income of City residents. Income taxed includes business net income and individuals' salaries and wages. Up to and including the calendar year ending December 31, 1995, residents paid 1% and non-residents paid 0.5%. In 1995, the City's electorate authorized an increase in the income tax from 1.0 % to 1.3% for residents and from 0.5% to 0.65% for non-residents effective January 1, 1996. At the same time, the City's electorate voted to amend the City Charter to annually dedicate an appropriation of not less than 32% of the City's general operating fund budget to provide police services so long as an income tax of at least 1.3% for residents and 0.65% for non-residents is collected. In May 2010, the City's electorate authorized a temporary increase in the income tax from 1.3% to 1.5% for residents and from 0.65% to 0.75% for non-residents effective July 1, 2010 through June 30, 2015. On May 6, 2014, the City's electorate voted to amend the City Charter to extend the temporary increases in the resident and non-resident income tax rates for an additional term of fifteen years, commencing July 1, 2015, to provide funds for constructing, reconstructing, repairing and rehabilitating various public streets, roads, sidewalks, and adjacent or related rights of way, property, and easements.

Dependency exemptions are allowed on individual returns, with other exemptions available as well. Beginning July 1, 2010, the dependency exemption was lowered from \$750 to \$600 per dependent. Set forth below is a five year history of income tax collections.

**City of Grand Rapids, Michigan
Income Tax Collections
Fiscal Years Ended June 30, 2011 Through 2015**

Fiscal Years <u>Ended June 30</u>	Gross Tax <u>Collections</u> ¹	Less: <u>Refunds</u>	Net Income <u>Tax Collections</u> ¹	% Increase or (Decrease) over <u>Prior Year</u>
2011 ²	\$71,602,332	\$7,749,406	\$63,852,923	21.26%
2012 ³	76,085,701	7,906,292	68,179,409	6.78
2013 ⁴	84,433,157	8,961,666	75,471,491	10.70
2014 ⁵	85,828,713	8,254,376	77,574,337	2.79
2015 ⁶	90,913,513	8,943,101	81,970,412	5.67

¹ Including interest and penalties.

² Collections were \$55,335,670 net of temporary income tax increase effective July 1, 2010.

³ Collections were \$59,122,192 net of temporary income tax increase effective July 1, 2010.

⁴ Collections were \$65,407,835 net of temporary income tax increase effective July 1, 2010.

⁵ Collections were \$67,303,469 net of temporary income tax increase effective July 1, 2010.

⁶ Collections were \$71,077,962 net of temporary income tax increase effective July 1, 2010.

REVENUES FROM THE STATE OF MICHIGAN

The City receives revenue sharing payments from the State of Michigan under the State Constitution and the State Revenue Sharing Act of 1971, as amended. The revenue sharing payments are composed of two components – a constitutional distribution and a statutory distribution.

The constitutional distribution is mandated by the State Constitution and distributed on a per capita basis to townships, cities and villages. The amount of the constitutionally mandated revenue sharing component distributed to the City can vary depending on the population of the City and the receipt of sales tax revenues by the State.

The statutory distribution is authorized by legislative action and distribution is subject to annual State appropriation by the State Legislature. Statutory distributions may be reduced or delayed by Executive Order during any State fiscal year in which the Governor, with the approval of the State Legislature’s appropriations committees, determines that actual revenues will be less than the revenue estimates on which appropriations were based.

On June 18, 2015, Governor Snyder signed into law the budget for fiscal year 2016 which includes an increased constitutional revenue sharing distribution to cities, villages and townships of 3.1% from the fiscal year 2015 distribution to approximately \$788,500,000. The fiscal year 2016 budget also continues the incentive-based statutory revenue sharing program known as the City, Village, and Township Revenue Sharing (or “CVTRS”) program begun in fiscal year 2015, similar to the Economic Vitality Incentive Program (“EVIP”) that from fiscal year 2012 through fiscal year 2014 distributed statutory revenue sharing to municipalities that complied with certain “best practices.” Under the fiscal year 2016 budget, about \$243 million, a reduction of 2.3% from fiscal year 2015 amounts, has been appropriated for statutory revenue sharing to cities, villages and townships which certify to the Michigan Department of Treasury that by December 1 of each year the local unit has produced and made the following documents readily available to the public:

- a. Citizen's guide of its most recent local finances, including recognition of its unfunded liabilities
- b. Performance Dashboard
- c. Debt Service Report containing a detailed listing of its debt service requirements
- d. Projected Budget Report of revenues and expenditures.

The City has consistently met the requirements of the CVTRS program and its predecessor programs and has received 100% of eligible payments under these statutory revenue sharing programs since their inception. Any portion of the fiscal year 2016 CVTRS payments the City would be eligible to receive would be subject to the City completing above listed benchmarks, and there can be no assurance of what amount, if any, the City would receive under the CVTRS program. Currently, the City anticipates meeting the statutory revenue sharing requirements and has budgeted to receive \$5,447,750 in CVTRS payments its fiscal year ending June 30, 2016. Half of these payments are budgeted in the City's General Operating Fund and the other half are budgeted in its Capital Reserve Fund.

Purchasers of City bonds should be alerted to further modifications to statutory revenue sharing payments to Michigan local governmental units, to potential consequent impact on the City's general fund condition, and to the potential impact upon the market price or marketability of City bonds resulting from changes in revenues received by the City from the State.

The following table sets forth the annual revenue sharing payments and other moneys received for the City's general operating fund for the fiscal years ended June 30, 2011 through June 30, 2015.

**City of Grand Rapids, Michigan
General Operating Fund Revenues from the State of Michigan
Fiscal Years Ended June 30, 2011 Through 2015**

	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>
Sales Tax	\$19,268,890	\$13,466,847	\$13,745,657 ¹	\$14,068,013 ¹	\$14,288,969 ¹
Grants and Other	<u>453,721</u>	<u>618,875</u>	<u>817,520</u>	<u>647,941</u>	<u>597,846</u>
Total Revenues from the State of Michigan.....	<u>\$19,722,611</u>	<u>\$14,085,722</u>	<u>\$14,563,177</u>	<u>\$14,715,954</u>	<u>\$14,886,815</u>

¹ Constitutional revenue sharing only. The City also receives incentive based statutory revenue sharing under the CVTRS/EVIP programs. Since this revenue is subject to appropriation by the State of Michigan, these revenues were not part of the City's General Operating Fund budgets. Instead, they have been deposited into the Transformation Fund. In FY2012, the City received \$3,815,997 for deposit into the City's Transformation Fund. In FY2013, the City deposited into the Transformation Fund \$4,661,457; and in FY2014, the City deposited \$5,132,391. In FY2015, the City deposited \$2,644,539 into the Transformation Fund and the same amount into the Capital Reserve Fund.

CITY DEBT

Statutory and Constitutional Debt Provisions

Section 21 of Article VII of the State Constitution establishes the authority, subject to statutory and constitutional limitations, for municipalities to incur debt for public purposes:

"The legislature shall provide by general laws for the incorporation of cities and villages. Such laws shall limit their rate of ad valorem property taxation for municipal purposes, and restrict the powers of cities and villages to borrow money and contract debts. Each city and village is granted power to levy other taxes for public purposes, subject to limitations and prohibitions provided by this constitution or by law."

In accordance with the foregoing authority granted to the State Legislature, the Home Rule City Act limits the amount of debt a city may have outstanding at any time. Section 4(a) of this Act provides:

"... the net indebtedness incurred for all public purpose may be as much as but shall not exceed the greater of the following:

- (a) Ten percent of the assessed value of all real and personal property in the city.
- (b) Fifteen percent of the assessed value of all the real and personal property in the city if that portion of the total amount of indebtedness incurred which exceeds 10% is or has been used solely for the construction or renovation of hospital facilities."

Significant exceptions to the debt limitation are permitted by the Home Rule City Act for certain types of indebtedness which include: special assessment bonds and State transportation fund bonds (formerly, motor vehicle highway fund bonds), even though they are a general obligation of the City; revenue bonds payable from revenues only, whether secured by a mortgage or not; bonds issued or contract obligations or assessments incurred to comply with an order of the Water Resources Commission of the State or a court of competent jurisdiction, and obligations incurred for water supply, sewage, drainage or refuse disposal or resource recovery projects necessary to protect the public health by abating pollution.

Legal Debt Margin

Pursuant to the statutory and constitutional debt provisions set forth herein, the following table reflects the amount of additional debt the City may legally incur as of July 2, 2015.

Debt Limit ⁽¹⁾	\$469,029,515
Debt Outstanding ⁽²⁾	\$557,790,793
Less: Exempt Debt	(400,669,209)
Legal Debt Margin ⁽²⁾	<u>\$311,907,931</u>

(1) 10% of \$4,690,295,150 which is the City's Total SEV for the fiscal year ending June 30, 2016. Includes the SEV of property granted tax abatement under Act 198, Act 146 and Act 147. See "CITY TAXATION AND LIMITATIONS-Property Valuations" and "CITY TAXATION AND LIMITATIONS – Tax Abatement" herein.

(2) See definitions above.

¹Estimated. The City's share of the annual bond maturities will vary from year to year based on its share of total biosolids treated and disposed of at the biosolids facility jointly owned and operated by the City and the City of Wyoming.

Source: The City of Grand Rapids.

Debt History

There is no record of default on obligations by the City since 1933.

Short Term Borrowing

No short-term borrowing is being utilized except to the extent of the City's participation in the County delinquent tax payment fund. See "CITY TAX AND LIMITATIONS – Property Tax Collections" herein.

Operating Lease

In 1998, the Kent County Building Authority sold \$65,650,000 of bonds to finance the construction of a new courthouse. In November, 2005 the Kent County Building Authority refunded a portion of such outstanding bonds with a \$49,990,000 issue of refunding bonds. The City entered into a 28 year operating lease with Kent County to utilize approximately 31.35% of the facility to house the 61st District Court and related City facilities. The City pays the Kent County Building Authority 31.35% of the debt service payments on the bonds issued for the courthouse as well as its proportionate share of facility operating and maintenance costs.

Future Financing

Within the twelve months following June 30, 2015 the City plans to issue several bond issues.

On August 26, 2015 the City issued a \$15 million bond under the authorization of Michigan Public Act 34 of 2001, as amended, to support the construction, reconstruction, repair, and rehabilitation of various public streets, sidewalks, and adjacent or related right-of-way, property, or easements within the City. Debt was issued with a single maturity due October 1, 2020. This is the second of three expected short-term bond issues for capital projects associated with the voter-approved Vital Streets temporary income tax increase. The first bond was issued on September 25, 2014 in the amount of \$17 million. The final issue, in the amount of \$18 million, is expected to be issued in the spring (April) of 2016.

In early 2016, the City expects to issue Sanitary Sewer System (“SSS”) Revenue Refunding Bonds to advance refund the SSS Series 2008 Bonds maturing on January 1, 2017 and later. Bonds maturing on or after January 1, 2019 are subject to redemption at the option of the City in whole or in part, on any date on or after January 1, 2018, at the redemption price of par, together with accrued interest to the redemption date. By choosing to advance refund the Series 2008 Bonds, the City expects to exceed its 5% minimum net present value savings refunding threshold.

Also in early 2016, the City expects to issue an LTGO bond issue in the amount of approximately \$20,435,000 to partially refund the City’s Capital Improvement Bonds Series 2007 and Grand Rapids Building Authority Series 2006 and Series 2008 bond issues. These Series 2016 refunding bonds will be issued under the authorization of Michigan Public Act 34 of 2001, as amended.

In April, 2016 the City also expects to issue a series of Water Supply System junior lien revenue bonds in the amount of approximately \$2.855 million through the Michigan Finance Authority Revolving Fund program. The bond proceeds will finance the costs associated with the construction of a water storage tank within the boundaries of the City of Walker, which will be responsible for paying debt service associated with the bonds.

The City will assist the State of Michigan if it determines to refund the Grand Rapids Building Authority (the “GRBA”) Series 2002A bonds and the GRBA Series 2004A bonds, both of which were issued by the GRBA on behalf of the State of Michigan.

EMPLOYEE BENEFITS AND LABOR CONTRACTS

Vacation and Sick Leave Benefits and Associated Liabilities

Employees of the City can earn up to 27 days of paid vacation per year based on various years of service formulas outlined in bargaining unit contracts and non-represented staff benefit plans. Unless an unusual exception is granted by the City Manager, the use, conversion, and carryover of paid vacation time is established by the current contract for each bargaining unit and can vary from one bargaining unit to another. Terminated or retiring employees are paid for unused vacation days.

Depending on the bargaining unit, employees of the City may also earn from one-half day to one day of paid sick leave per month depending on the particular labor contract. Based on the number of years of service, employees are paid for up to 90 days of accumulated sick leave at termination or retirement provided they have worked a minimum of 10 continuous years. At time of retirement, employees can also elect to purchase pension service credit with unused sick leave hours.

The City accrues paid vacation and sick leave liabilities as assigned fund equity on the Governmental Fund Balance Sheet. For the fiscal year ended June 30, 2015, the amount of \$7,615,795 was so assigned for the City's General Fund.

Other Postemployment Benefits

In June, 2004 the Governmental Accounting Standards Board ("GASB") issued its Statement 45 – "Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions." Other postemployment benefits ("OPEB") include postemployment healthcare insurance as well as other forms of postemployment benefits (for example, life insurance) when provided separately from a pension plan. GASB Statement 45 established standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information in the financial reports of state and local governmental employers.

The City provides postemployment healthcare insurance until age 65 (or the date of Medicare eligibility depending on the labor contract) for its employees who retire prior to age 65, were hired prior to 2009, and meet other criteria. Similar to other governmental units, the City historically funded its OPEB program on a pay-as-you-go basis prior to 2007.

GASB Statement 45 requires that OPEB assets be held within an irrevocable trust fund in order to be considered "Plan Assets." During 2010, the City established irrevocable trusts to accumulate the assets for fulfilling the postemployment benefits obligations.

The retiree health care benefit has been modified in recent years. All new hires since 2009 participate in a defined contribution ("DC") retiree health care plan rather than a defined benefit plan. Currently, 47% of City employees are participating in the DC retiree health care plan. Employees who remain in the defined benefit ("DB") plans now earn the benefit incrementally over the course of their careers, and employees who retire after June 30, 2010 will "float" with active employees relative to health care plan design and premium sharing.

The City has four single employer DB OPEB plans to provide other postemployment benefits consisting of health care benefits for eligible retirees and their eligible dependents until the retiree is age 65 (or Medicare eligible, depending on the particular labor contract). Three of the plans are agent plans administered by the Municipal Employees Retirement System of Michigan ("MERS"). The fourth plan is an unfunded "pay-as-you-go" plan administered by the Grand Rapids Public Library for its retirees. All four DB plans are closed to new entrants.

Current employees not covered by one of the DB OPEB plans are covered by the DC plan created in 2009 and administered by MERS. The plans do not issue separate financial statements and basic financial information regarding assets, liabilities and net position, basis of accounting and funding policy is included in Note 8 of the City's Comprehensive Annual Financial Report.

The most recent actuarial studies were completed as of June 30, 2014. These studies used an assumed investment return rate of 5%, a blend of a short-term and long-term investment return assumptions, because plan assets are now held in trusts and invested by the Municipal Employees Retirement System (MERS) of Michigan. The June 30, 2014 valuations recommended annual required defined benefit contributions for the fiscal year beginning July 1, 2015 (i.e., FY2016) in the amount of \$5,258,867 for general employees, \$5,103,301 for police employees, and \$3,461,882 for fire employees. The total FY2016 annual required contribution, including the defined contribution Retiree Health Savings Account ("RHSA") requirement, is \$13,824,050. The combined UAAL are \$128,343,070. The fiscal year 2016 adopted budget incorporates the annual required contributions as recommended.

Contribution levels are determined annually by the City during the annual budget process after considering the expected pay-as-you-go cash outlays from each plan, the annual required contribution (ARC) calculated by the Plan's actuary. No contributions are required from current employees covered by the DB plans, but retirees may have a required premium based on date of retirement and the particular labor contract. The City calculates a blended rate (i.e. a single rate) to charge funds and departments for all employees without regard to whether employees are eligible for the DB or the DC benefits. For the fiscal year beginning July 1, 2015 (i.e. FY2016), the adopted budget incorporated the following blended rates for pension benefits: general employees 13.75%; police employees 25.90; and, fire employees 24.77%.

In September, 2010, the City's Public Library established a fourth Retiree Health Care Plan which removed existing departmental retirees and a small number of active employees from the City's General Plan. The Library Board decided the Library will fund their postemployment benefits on a pay-as-you-go basis. Actuarial reports will be prepared every three years, with the most recent prepared as of June 30, 2013.

For more information regarding the City's postemployment benefits see Appendix B – FY2015 Comprehensive Annual Financial Report, Notes to the Financial Statements, Note 8 – Postemployment Benefits Other than Pensions, page 71.

Pension Plans

The City maintains two defined benefit retirement plans that cover most full-time City employees. The plans, known as the City of Grand Rapids General Retirement System ("GRS") and the City of Grand Rapids Police and Fire Retirement System ("PFRS"), are administered by local pension boards, members of which are appointed by the Mayor and/or elected by members of the respective System.

The GRS and PFRS plans are advance funded on a level percent-of-payroll basis. These contributions are equal to normal cost (the current value of benefits accrued by active members during the year) and both interest and principal on the unfunded actuarial accrued liability (the difference between actuarial accrued liability and the system assets). The actuary for both of the retirement systems is Gabriel, Roeder, Smith and Company of Southfield, Michigan. Contributions are made by employees and the City based on covered wages. Covered wages for the GRS consist of base wages while for the PFRS covered wages include most pay premiums (i.e. gross wages).

The GRS has been closed to most employees hired after 2011 and all employees hired after June 30, 2014. The new employees are eligible for defined contribution pension benefits funded with 6% contributions from both the City and the employee. The financial impacts from these changes will be reflected in subsequent actuarial valuations.

For the fiscal year ended June 30, 2015, for the defined benefit GRS the City was required to make contributions of 28.25% of covered wages while GRS member employees contributed 7.93% (weighted average) of their covered wages to the fund. For the fiscal year beginning July 1, 2015, the actuarial report results proposed that GRS member employees contribute 7.90% (weighted average) and that the City contribute 24.38% of covered wages. However, the annual required contribution amounts computed in the actuarial report have been offset by blending pensionable wages with current employees participating in the defined contribution pension plan. The FY2016 adopted budget incorporates the blended rate of 21.12% for general employees.

Police and fire employees contributed 10.27% to the PFRS and the City contributed 16.31% of covered wages for the fiscal year ended June 30, 2015. Based on the December 31, 2014 valuation, for the fiscal year beginning July 1, 2015, police and fire employees contribute 10.25% to the PFRS and the City is contributing 14.63% of covered wages.

For additional information regarding “Actuarial Accrued Liability” and “Actuarial Value of Plan Assets” please refer to Appendix B - FY2015 Comprehensive Annual Financial Report, Notes to the Financial Statements, Note 7 - Retirement Plans, page 64.

Both the GRS and the PFRS conduct Experience Studies once every five years. The purpose of these studies is to review the actual and projected future experience of key variables and assumptions that are used in the annual valuation of system liabilities. The most recent studies were recently considered by the Board of Trustees of both the GRS and the PFRS and both of the respective Boards approved changes recommended by the actuary. The changes were presented in comparison to the then most recent actuarial valuations. For the GRS, the comparison valuation as of June 30, 2014 which previously had calculated the annual required contribution at 24.38%. Based on the revised assumptions approved by the pension Board of Trustees, that rate would now be 30.68%. For the PFRS, the comparison valuation as of December 31, 2014 which previously had calculated the annual required contribution at 14.63%. Based on the revised assumptions approved by the pension Board of Trustees, that rate would now be 22.41%. These revised assumptions will be used by the actuary in the future annual valuation of system liabilities. The City will continue to fund the annual required contributions specified by the annual valuation.

Building Permits

The following are the number and value of building permits issued in the City during the past five fiscal years:

Fiscal Year Ended June 30	Number of Permits Issued	Total Value
2011	1,843	\$140,935,725
2012	2,115	169,780,000
2013	2,218	308,520,000
2014	2,278	312,740,000
2015	2,550	245,640,000

Source: City of Grand Rapids.

SANITARY SEWER SYSTEM

Wastewater Volumes

Five years of annual tributary flows to the Wastewater Treatment Plant (“WWTP”) are shown in the following table.

Fiscal Year <u>June 30</u>	Total Sales ⁽¹⁾ in Million Gallons ("MG")	Additional Inflow and Infiltration in MG to the WWTP ⁽²⁾	Total WWTP Influent in MG	Treated Average Daily Influent in MG	Known Bypass in MG	Total Annual Billing in Million Dollars
2011	8,240	7,082	15,322	42.0	50.055	\$47.7
2012	8,256	6,665	14,921	40.9	0.343	48.8
2013	8,041	7,060	15,100	41.4	0.000	46.0
2014	7,906	7,157	15,062	41.4	0.000	46.0
2015	7,815	6,912	14,753	40.5	0.000	48.4

- (1) Sales are based upon customer water consumption, excepting large wholesale customers whose sewage flow is metered.
- (2) Additional inflow and infiltration into the Sanitary Sewer System is a result of wet weather, leakage, unauthorized drainage and other types of wastewater infiltration.

Source: City of Grand Rapids

Wastewater Characteristics

The quality of the wastewater influent received at the WWTP and the quality of the effluent discharged into the Grand River is measured in four principal ways. The table below compares the quality of the wastewater treated by the WWTP with the amounts allowed under the National Pollutant Discharge Elimination System (“NPDES”) permit issued to the City. WWTP effluent consistently meets all applicable permitted discharge standards.

* The concentrations in this table are presented in milligrams per liter averaged on a daily basis over one-month periods. The concentrations are determined from a flow proportion composite of samples taken at intervals over a one-day period. The composite daily concentrations are analyzed and the daily results over a one month period are added together and averaged.

Source: City of Grand Rapids Waste Water Treatment Plant

If effluent discharge levels exceed levels allowed under the permit issued to the City, the City reports that fact to the Michigan Department of Environmental Quality (the "MDEQ"). The MDEQ has not sought any fines, penalties or other sanctions against the City for discharges which exceed the limits or restrictions set forth above. The City files monthly operating reports and reports of any spills associated with its wastewater system to MDEQ as mandated in its NPDES wastewater discharge permit. All reports have been filed with MDEQ as required.

Organization, Management and Staffing

The City administers the Sanitary Sewer System ("SSS") through its Environmental Services Department ("ESD") which is aligned under the Enterprise Systems Services Group. This service group operates under the administrative direction of the Deputy City Manager. The daily operations of the ESD are overseen by the Department Manager.

The ESD administers the SSS through five divisions - Operations, Maintenance, Environmental Assessment, Sewer Maintenance, and the Utilities Engineering. The Maintenance Division is responsible for all mechanical/electrical/facilities maintenance as well as pipeline cleaning in the collection system. The Operations Division maintains the remote pumping stations, meter stations, regulator stations and operates the WWTP. The Environmental Assessment Division provides laboratory services, industrial monitoring and surveillance, and special field investigations. Sewer Maintenance provides assessments and cleaning of the sanitary sewerage system. Utilities Engineering provides utility engineering support for process engineering and collection system repair services for the ESD.

The fiscal year 2016 budget for these divisions authorized a total of 102.963 employees. The City believes the ESD is adequately staffed to operate and maintain the collection and treatment system in accordance with its NPDES permit.

Regulatory Requirements

The SSS is subject to extensive regulation under the Federal Water Pollution Control Act, as amended by the Clean Water Act of 1977 and the Water Quality Act of 1987 as amended and other federal and state statutes. In Michigan, the regulatory requirements of the Clean Water Act are administered by the United States Environmental Protection Agency (the "EPA") through the MDEQ. Regulations of these agencies deal primarily with the quality of effluent discharged to the Grand River, disposal of biosolids and other requirements imposed on the SSS as a condition of its participation in federal financial assistance for construction of wastewater facilities.

Included in the Clean Water Act regulatory framework administered by EPA is the NPDES permit program. This program requires the operation of wastewater treatment facilities according to discharge limitations and reporting requirements set forth in permits issued for each facility.

The Grand River, which receives the treated effluent from the WWTP, has a water quality standard for partial body contact, recreational use, and the ability to support warm water fish and supply agricultural and industrial water needs. The City's current NPDES permit was issued on November 1, 2006 and was in effect until October 1, 2010. The City applied to renew the NPDES in a timely manner and the permit issued November 1, 2006 is automatically extended until a new permit is issued by the MDEQ. Until the new permit is issued, the November 2006, permit remains in force.

Billings and Collections

The following table sets forth the history of billings and collections for the SSS for the fiscal years ended June 30, 2011 through 2015.

CITY OF GRAND RAPIDS, MICHIGAN SANITARY SEWER SYSTEM RETAIL BILLINGS AND COLLECTIONS

Source: City of Grand Rapids

Rate Setting Methodology

In 1976, the City undertook the task of establishing a methodology to be used to annually determine appropriate rates and charges for customers using the SSS. Prior to that time, the City had periodically adjusted rates for City users based on short-term projections of cash flow requirements and indexed suburban customer rates at a factor of two times the City rates. The rates that resulted from such adjustments did not adequately reflect the long term needs of the System and did not adequately reflect the variations in usage rates and operating and capital costs of providing service to the various suburban customer communities.

To remedy this and to establish a procedure for implementing annual rate adjustments, the City, in consultation with the customer communities with which it had retail and wholesale water service agreements,

adopted a method of adjusting rates annually. The first such annual rate study took eighteen months to complete and resulted in new rates effective January 1, 1978. Agreements with each of the retail and wholesale governmental customer communities serviced by the SSS were amended in 1978 to incorporate the current rate setting methodology and establish the annual revenue requirement. In 1998 and 2006 the agreements were further amended for the rate setting methodology changes. In 2006, fees were no longer applied as credits (offsets) to revenue requirements. Instead, penalty fees were used to fund the Individual Circuit Breaker (“ICB”) and City and Customer Community Circuit Breaker (“CCCCB”). The ICB is a program aimed at addressing retail users requiring assistance in payment of their water/sewer bills. The CCCCCB is a mechanism, if sufficient funding is available, to limit retail service area revenue requirement changes to a level in line with the overall systems’ initial proposed changes. In 2010, the agreements were amended further, changing the rate setting methodology to use a three-year average of billed flow and reducing the rate of return on fixed assets to the Bond Buyer Index for 20-year Municipal Bonds plus 4.50% per annum (formerly plus 6.00%). The City has conducted annual rate studies each year since 1978 and has adjusted rates accordingly.

The rate setting methodology is founded on the basic principle that rates will be set to meet revenue requirements as defined by historical costs adjusted by known cost increases and decreases. Also, a significant goal of the methodology was the proper allocation of costs and rates among the users in each of the customer communities served. In general, the costs of capital improvements which benefit specific customers of the SSS are allocated to those customers in the rate setting methodology, while the costs of capital improvements related to the operation of the entire SSS are allocated to all users.

The annual rate analysis background material is assembled during the period from August through November of each year. The base period financial information consists of the actual revenues and expenses of the fiscal year ended on the most recent June 30th. Revenue requirements of the SSS are comprised of operating and maintenance expense, depreciation expense, a “return” on the net book value of fixed assets constructed and acquired utilizing the retained earnings of the SSS, and certain debt service costs. Integrated connection fees are an offset to revenue requirements. The revenue requirement components are adjusted to reflect current unit cost data available during the pendency of the rate study. Rates are then calculated that will generate revenues equal to the net revenue requirement. New rates and charges are reported to the City Commission and customer communities on or about November 15th each year with implementation on the following January 1st. The most recent rates were adopted and approved by the City Commission on December 15, 2015 for users within the City and customer communities.

Under the agreements with the customer communities, the rates adopted by the City take effect each January 1, following the completion of each annual rate study. Customer communities cannot delay the imposition of the new rates, but are permitted to seek arbitration to resolve any disagreement over new rates. The arbitrator is required to strictly apply the rate setting methodology to resolve disagreements. Since the implementation of the City’s rate setting methodology in 1978, only one such disagreement has arisen which was resolved through arbitration.

The rates consist of a “commodity” charge and a monthly “readiness-to-serve” charge. The commodity charge is assessed upon consumption and comprises approximately 64% of the System’s revenues. The monthly readiness-to-serve charge is based upon meter size.

The following table “Sanitary Sewer System Rate Studies – Comparative Analysis of Rates 1978 to 2015”, demonstrates the rate study methodology’s various objectives in four major ways: (1) the methodology has recognized variations among the various communities; (2) the methodology has produced adequate revenues over the period; (3) the methodology has resulted in a wide variety of rate adjustment; and (4) the methodology operates in an open and transparent manner with information available to customer communities and users.

Connection Fees

On June 27, 2000, the Grand Rapids City Commission enacted Ordinance No. 2000-32 establishing a schedule of integrated connection base fee increases for initial connection to the System for periods through December 31, 2008. On December 16, 2014, the Grand Rapids City Commission enacted Ordinance No. 2014-87 establishing the fees effective January 1, 2015. These integrated connection fees apply to all users of the System except users in Gaines Township. The receipts from these fees are shown in the table "SANITARY SEWER SYSTEM – Results of Operations."

**CITY OF GRAND RAPIDS, MICHIGAN

Net Earnings and Bond Coverage

The Bond Ordinance requires that the net revenue generated by the SSS must be sufficient to meet the cash requirements of the SSS which include: (a) administrative, operation and maintenance expenses; (b) debt service requirements on bonded debt; and (c) expenditures for capital improvements not financed from bond proceeds or contributions. In addition, the City covenants and agrees that it will, at all times, on a pro-forma basis, prescribe and maintain and thereafter collect rates and charges for the services and facilities furnished by the SSS which, together with other income, are reasonably expected to yield annual net earnings in the current fiscal year equal to at least one hundred twenty percent (120%) of the annual principal and interest requirement in such fiscal year.

Net earnings of the SSS are calculated in the section entitled "Results of Operations." The table below sets forth the debt service and the coverage ratio based on the net earnings of the SSS for the fiscal years ended June 30, 2011 through 2015. The Coverage Ratio has been determined by dividing the Net Earnings for each fiscal year by the total annual principal and interest payments for each fiscal year.

Rate Setting Methodology

In 1976, the City undertook the task of establishing a methodology to be used annually determine appropriate rates and charges for customers using the WSS. Prior to that time, the City had periodically adjusted rates for City users based on short-term projections of cash flow requirements and indexed suburban customer rates at a factor of two times the City rates. The rates that resulted from such adjustments did not adequately reflect the long term needs of the WSS and did not adequately reflect the variations in usage rates and operating and capital costs of providing service to the various suburban customer communities.

To remedy this and to establish a procedure for implementing annual rate adjustments, the City, in consultation with the customer communities with which it had retail and wholesale water service agreements, adopted a method of adjusting rates annually. The first such annual rate study took eighteen months to complete and resulted in new rates effective January 1, 1978. Agreements with each of the retail and wholesale governmental customer communities serviced by the WSS were amended in 1978 to incorporate the current rate setting methodology and establish the annual revenue requirement. In 1998 and 2006 the agreements were further amended for the rate setting methodology changes. In 2006, fees were no longer applied as credits (offsets) to revenue requirements. Instead, penalty fees were used to fund the Individual Circuit Breaker (“ICB”) and City and Customer Community Circuit Breaker (“CCCCB”). The ICB is a program aimed at addressing retail users requiring assistance in payment of their water/sewer bills. The CCCCCB is a mechanism, if sufficient funding is available, to limit retail service area revenue requirement changes to a level in line with the overall systems’ initial proposed changes. In 2010, the agreements were amended further, changing the rate setting methodology to use a three-year average of billed flow and reducing the rate of return on fixed assets to the Bond Buyer Index for 20-year Municipal Bonds plus 4.50% per annum (formerly plus 6.00%). The City has conducted annual rate studies each year since 1978 and has adjusted rates accordingly.

The rate setting methodology is founded on the basic principle that rates will be set to meet revenue requirements as defined by historical costs adjusted by known cost increases and decreases. Also, a significant goal of the methodology was the proper allocation of costs and rates among the users in each of the customer

communities served. In general, the costs of capital improvements which benefit specific customers of the WSS are allocated to those customers in the rate setting methodology, while the costs of capital improvements related to the operation of the entire WSS are allocated to all users.

The annual rate analysis background material is assembled during the period from August through November of each year. The base period financial information consists of the actual revenues and expenses of the fiscal year ended on the most recent June 30th. Revenue requirements of the WSS are comprised of operating and maintenance expense, depreciation expense, a “return” on the net book value of fixed assets constructed and acquired utilizing the retained earnings of the WSS, and certain debt service costs. Integrated connection fees are an offset to revenue requirements. The revenue requirement components are adjusted to reflect current unit cost data available during the pendency of the rate study. Rates are then calculated that will generate revenues equal to the net revenue requirement. New rates and charges are reported to the City Commission and customer communities on or about November 15th each year with implementation on the following January 1st. The most recent rates were adopted and approved by the City Commission on December 15, 2015 for users within the City and customer communities.

Under the agreements with the customer communities, the rates adopted by the City take effect each January 1, following the completion of each annual rate study. Customer communities cannot delay the imposition of the new rates, but are permitted to seek arbitration to resolve any disagreement over new rates. The arbitrator is required to strictly apply the rate setting methodology to resolve disagreements. Since the implementation of the City’s rate setting methodology in 1978, only one such disagreement has arisen which was resolved through arbitration.

The rates consist of a “commodity” charge and a monthly “readiness-to-serve” charge. The commodity charge is assessed upon consumption and comprises approximately 64% of the WSS revenues. The monthly readiness-to-serve charge is based upon meter size.

The following table “Water Supply System Rate Studies – Comparative Analysis of Rates 1978 to 2015”, demonstrates the rate study methodology’s various objectives in four major ways: (1) the methodology has recognized variations among the various communities; (2) the methodology has produced adequate revenues over the period; (3) the methodology has resulted in a wide variety of rate adjustment; and (4) the methodology operates in an open and transparent manner with information available to customer communities and users.

Connection Fees

On June 27, 2000, the Grand Rapids City Commission enacted Ordinance No. 2000-32 establishing a schedule of integrated connection base fee increases for initial connection to the WSS for periods through December 31, 2008. On December 18, 2012, the Grand Rapids City Commission enacted Ordinance No. 2012-63 establishing the fees effective January 1, 2013. These integrated connection fees apply to all users of the System except users in Ottawa County. The receipts from these fees are shown in the table "WATER SUPPLY SYSTEM – Statement of Operations".

Effective January 1, 2005, and January 1st of every year thereafter, the Integrated Water Supply Connection Base Fees are adjusted by an annual percentage which is determined by the annual change (if positive) in the Consumer Price Index – U.S. City Average, All Urban Consumers.

(1) Includes public fire protection, contractor services, jobbing materials, penalties, service fees, and unmetered water sales.

(2) Pursuant to bond ordinance definition of net earnings.

Source: City of Grand Rapids

NET EARNINGS AND BOND COVERAGE

The Bond Ordinance requires that the net revenue generated by the WSS must be sufficient to meet the cash requirements of the WSS which include: (a) administrative, operation, and maintenance expenses; (b) debt service requirements on bonded debt; and (c) expenditures for capital improvements not financed from bond proceeds or contributions. In addition, the City covenants and agrees that it will, at all times, on a pro forma basis, prescribe and maintain and thereafter collect rates and charges for the services and facilities furnished by the WSS which, together with other income, are reasonably expected to yield annual net earnings in the current fiscal year equal to at least one hundred twenty percent (120%) of the annual principal and interest requirement in such fiscal year.

Net earnings of the WSS are stated in the section entitled “Results of Operations.” The table below sets forth the debt service and coverage ratio based upon the net earnings of the WSS for the fiscal years ended June 30, 2011 through 2015. The coverage ratio has been determined by dividing the net earnings for each fiscal year by the total annual principal and interest payments of outstanding bonds for each fiscal year.

GRAND RAPIDS DOWNTOWN DEVELOPMENT AUTHORITY

The Grand Rapids Downtown Development Authority (the Authority), a component unit of the City of Grand Rapids, Michigan (the City), was created in 1979 by the City of Grand Rapids under the provisions of the State of Michigan Public Act 197 of 1975, as amended (“Act 197.”) The purpose of the Authority is to correct and prevent deterioration in business districts; encourage historic preservation; authorize the acquisition and disposal of interests in real and personal property; authorize the creation and implementation of development plans in the districts; promote the economic growth of the districts; authorize the levy and collection of taxes; authorize the issuance of bonds and other evidences of indebtedness; and authorize the use of tax increment financing.

The district was formerly bounded roughly by Interstate 196 on the north, Division Avenue on the east, Cherry and Wealthy Streets on the south and Seward Street on the west. In November, 2007 the Authority and the Grand Rapids City Commission approved a plan amendment that nearly doubled the Authority’s development area. The current boundaries are roughly Newberry Street on the north, west of Lafayette Avenue or Prospect Avenue on the east, north of Logan Street or Wealthy Street on the south, and east of Lexington Avenue or Seward Avenue on the west. The initial property tax increment revenue capture for the expansion section was in the fiscal year ended June 30, 2009. The Authority has eleven sub-districts which are identified as Sub-Districts A through K.

The Authority captures property tax increment revenues from two sources, local tax increments and school tax increments. Local tax increment (“LTI”) revenues are millages assessed by the City of Grand Rapids, the County of Kent, the Inter-urban Transit Partnership and the Grand Rapids Community College. School tax increment (“STI”) revenues are related to the State Education Tax millage, the Grand Rapids Public Schools operating, sinking fund, and debt millages, and the Kent Intermediate School District millages.

Under the provisions of Act 197, the Authority may capture STI revenues only to the extent that city and county operating mills are captured. Since the County of Kent chose to ‘opt out’ of the Authority’s Sub-Districts F, I, J, and K at the time they were created, STI revenues are not captured from these four sub-districts. STI revenues are also not captured from Sub-District H since the City’s SmartZone LDFA captures all LTI revenues from Sub-District H.

State law restricts the Authority’s use of STI revenues for payment of debt service and other eligible obligations (together, “eligible obligations”) in existence prior to January 1, 1995 and also for refunding of any of those pre-1995 eligible obligations. The Authority’s debt service for obligations issued after January 1, 1995 and for all of the Authority’s development projects are funded with either LTI or non-tax increment revenues. The Authority’s non-tax increment revenues result primarily from interest on investments and parking revenues generated by parking facilities located on property owned by the Authority.

- ¹ In 1993/FY1994 the GR-DDA did not capture Grand Rapids Public Schools ("GRPS") debt millage. Staff has been unable to determine whether the debt millage was captured prior to 1993.
- ² Capture of school tax increment for Districts F and H ceased per the State's request beginning 2005/FY2006.
- ³ Added Districts G and H to Development Plan 1 capture boundaries in 2002/FY2003.
- ⁴ The Interurban Transit Partnership was formed in January, 2000 when voters approved the creation of a multi-jurisdictional entity with a four year millage. Voters have renewed existing millages every four years and approved millage rate increases beginning in the 2004, 2008, and 2011 roll years. For Roll Year 2013, the rate changed from 1.41000 to 1.4700 mills.
- ⁵ Voters approved an increase in the GRPS debt millage (from 0.8000 to 2.6800 mills) for multiple school building replacement/rehabilitation projects beginning 2004/FY2005. For Roll Year 2013, the rate remained 2.6000 mills.
- ⁶ City's refuse collection millage was increased by 0.2000 mills beginning in 2004/FY2005, by another 0.1200 mills beginning in 2007/FY2008, and by another 0.1300 mills beginning in 2009/FY2010. The millage was decreased by 0.2000 mill in 2012/FY2013. For Roll Year 2013, the rate remained 1.6000 mills.
- ⁷ Voters renewed the Kent County senior citizen support millage, approved a 0.0800 mill increase beginning in 2006/FY2007, and approved an additional 0.1756 mill increase beginning in 2014/FY2015.
- ⁸ The State of Michigan decreased the State Education Tax millage from 6.0000 mills to 5.0000 mills for 2003/FY2004 only.
- ⁹ Voters approved a 0.7430 mill net increase for the Kent Intermediate School District beginning 2004/FY2005.
- ¹⁰ Voters approved 1.0000 mill for creation of a Grand Rapids Public Schools sinking fund for capital repairs.
- ¹¹ Voters approved 0.9800 mill for 7 years in support of City parks and 0.0500 mill for County of Kent veterans' services for 8 years.

2015	2016 ³	472,479,225	163,634,789 ¹⁰	308,844,436	6.2%

- ¹ Initial values were corrected based on research related to the State's audit of the GR-DDA's Forms 2604 for roll years 1994 through 2000.
- ² Total assessed valuations haven't been adjusted to reflect valuation changes related to Board of Review, Tax Tribunal, and/or State Tax Commission decisions including the Amway Grand Plaza and Plaza Towers appeals decisions affecting roll years 1996 through 2000. Roll year 2001 includes the \$13,326,791 decrease for the Amway Grand Plaza & Plaza Towers real property assessments as do years after 2001.
- ³ Total 2014 assessed valuation as of May 14, 2015. Valuations may still be affected by Board of Review, Michigan Tax Tribunal, and/or State Tax Commission decisions issued after May, 2015. Roll year 2015 data based on March Board of Review values.
- ⁴ District F was added to the capture boundaries. Ad valorem initial value was \$1,739,970.
- ⁵ Districts G and H added to capture boundaries. Ad valorem initial value for District G was \$23,487,549 and District H was \$30,283,669.
- ⁶ Initial values for Districts G and H adjusted per order changes. District G real property initial value decreased by \$368,208. District H personal property initial value decreased by \$169,700.
- ⁷ City Assessor adjusted District H parcel list & initial values when it was discovered the parcel list for the new SmartZone LDFA, which overlaps all of DDA District H, omitted parcels, included wrong parcels, and mathematical errors. DDA initial value net increase was \$416,300.
- ⁸ Assessed valuations were based on state equalized value until roll year 1994 at which time the taxable value classification was created and property taxes began to be assessed against taxable value.
- ⁹ The Authority expanded to include Sub-Districts I, J, and K which added 976 parcels to the Authority's boundaries.
- ¹⁰ On April 21, 2011, the State Tax Commission changed the treatment of abatement based initial values by requiring them to be moved from the abatement roll to the ad valorem roll when the abatements expire. This reversed their 1997 decision which required abatement based initial values to remain in the category in which the value was located when the district/sub-district was created.

					\$ 12,122,158	\$ 141,597,812	\$ 21,755,467	\$ 175,475,437	

Note 1: Amounts projected for FY2016-25 are estimates and have been reduced for estimated losses related to property assessment appeals.

Note 2: DDA-supported debt issued before 1995, and issues which refund pre-1995 debt, are "eligible obligations" for which school tax related revenues may be used to support debt service. Post-1994 debt is supported by local tax increment revenues and includes Series 2008 Kent County Drain Commission bonds, Series 2013B City County Building Authority bonds, and \$75,000 to partially support Brownfield Redevelopment Authority Series 2012A bonds.

Note 3: By statute, any school tax increment revenue captured in excess of eligible debt service must be reimbursed to the taxing unit.

Note 4: Excludes capitalized interest

Note 5: Beginning with FY2013, the DDA agreed to pay the first \$75,000 of annual Brownfield Redevelopment Authority Series 2012A thru 06/01/2032.
