- 1. Total Amount Due - The amount due that is made up of all Current Charges and the Previous Balance minus Payments Received.**
- 2. Account Number - The number assigned to the account for which water/sewer services are being delivered.**
- 3. Bill Date - The date on which the bill was processed**
- 4. Due Date - The date by which the entire bill or first monthly option payment is due.**
- 5. Service Address - The street address to which the Water System supplies water and/or sewer services.**
- 6. Service Type - What services the Water System Supplies to the address. In this case it is a residential property which receives water and sewer services.**
- 7. Government Unit - The municipality in which the service address is being provided water and/or sewer services.**
- 8. Days Billed - The number of days being billed for water/sewer services on this bill. Quarterly customers are typically around 90 days, but this may vary slightly and can account for higher/ lower bills.**
- 9. Units Used/Usage - The volume of water usage as registered by the water meter, measured in units (1 unit = 748 gallons).**
- 10. Water Usage History - A chart that shows the past and current water usage for your water account.**
- 11. Previous Balance - The previous bill amount. This is, also, where you would see any other charges prior to the new billing such as Late Penalty and Meter Set Fees.**
- 12. Payment Received - Payments received prior to this bill date.**
- 13. Balance Before Current Charges - Your accounts previous balance before all current usage and readiness to serve charges are applied.**
- 14. Water Commodity Chg (charge) - Consumption charges based on water usage.**
- 15. Water Quarterly Readiness to Serve - The fixed daily charge based on the size of the meter at your location intended to recover costs associated with maintaining the Water System and customer accounts. These costs are incurred regardless of how much water is consumed.**
- 16. Sewer Qt (quarterly) Winter Avg - Consumption charges based on water usage. This charge is capped based on the Winter Average of water intake during your winter billing quarter.**
- 17. Sewer Quarterly Readiness to Serve - The fixed daily charge based on the size of the meter at your location intended to recover costs associated with maintaining the Water System and customer accounts. These costs are incurred regardless of how much sewer is consumed.**
- 18. Total Current Charges - The amount due for the current usage and Readiness to Serve charges.**
- 19. Monthly Option - A budget friendly monthly option that is due on or before the due date. This option generates a monthly reminder to be mailed for your convenience.**
- 20. Service - The type of service being tracked by the specific meter.**
- 21. Meter Number - The serial number of the meter installed at the location.**
- 22. Usage Period - The date range that this bill covers.**
- 23. Previous Read - The beginning read shown on the meter for this location for the usage period.**
- 24. Current Read - The end read shown on the meter for this location for the usage period.**
- 25. Type - The type of read (RR = actual read obtained for the meter, or EST = estimated reading due to inability to obtain actual read from the meter).**
