

Officers have drawn firearms on individuals who possessed non-firearm weapons due to the challenge of differentiating between real firearms and imitation firearms or guns pneumatic

In 3 years, our police department property management unit took in:

- 1067 firearms (handguns and long guns) for evidence, safekeeping and found.
- 201 BB guns / pellet / and airsoft guns for evidence, safekeeping and found.

### State law changes

- BB guns are now defined as "pneumatic guns" (not firearms)
- Prohibitions on youth use of bb guns were repealed.
- State law leaves it up to local government to decide whether to regulate pneumatic guns, including possession by juveniles, based on local needs

# Current City firearm

#### ordinance

- Firearms ordinance written in 1967, with few updates
- No City ordinance regulating pneumatic guns (bb guns, paintball, etc)
- No City ordinance regulating "replica" or "imitation guns"

#### GOAL

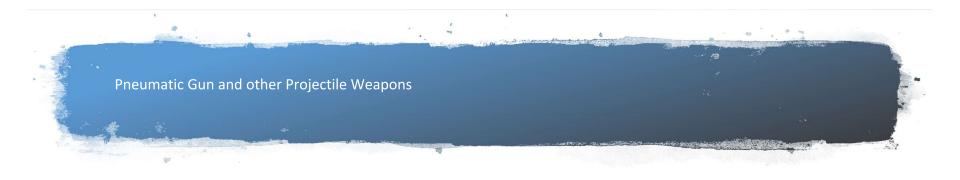

- Modernize ordinance to meet City's current needs and enhance the importance of community safety
- Update ordinance in furtherance of City Attorney commitment to review City Code
- Embrace the concept of police and community working together for a safer community

## Weapons Ordinance

- Update definition of firearms
- Regulate pneumatic guns
- Regulate imitation firearms
- Regulate other projectile weapons

**Prohibit** Discharge in public place

#### mm
