

Director Review

The Director Review process is intended to provide a streamlined review process for eligible projects to determine compliance with the Zoning Ordinance. These projects are reviewed at an administrative, or staff level, instead of by an appointed board such as the Planning Commission.

Director Review is required for the following:

- Uses listed as Director Review in Article 9 Use Regulations, such as a restaurant with alcohol service.
- Any proposed project that is regulated by the Zoning Ordinance but does not qualify for a Counter Review and is not subject to other reviews, such as Group Childcare Homes.

Upon receipt of an eligible, complete application, the application will be reviewed by Planning Department staff. Staff may contact the applicant with questions, request additional information, or may advise the applicant on changes or revisions to the application and submittals.

The findings of the Director Review, which may include conditions of approval, will be sent to the applicant in writing within fourteen (14) days of the final determination. Director Review decisions may be appealed to the Board of Zoning Appeals.

Please note that permits cannot be issued for any building or site activity until the Director Review is completed. The use must commence within one (1) year of issuance of a Director Review approval.

The Director shall have the option of requiring any plan to undergo a Site Plan Review by the Planning Commission even where deemed eligible for a Director Review if the scale or effect of the project is deemed to be significant enough to warrant the review of the Planning Commission.

The full text of relative to Director Review eligibility, process and requirements can be found in Zoning Ordinance Section 5.12.16.B.

Director Review

LIHTC Application Zoning Compliance/Site Plan Review

The approval resolution will be specific to the proposed use and general layout. The approval will be subject to several conditions, including the following:

- *That a final grading, landscape, lighting, stormwater and soil erosion plan be submitted with the Land Use Development Services (LUDS) application for all phases of the proposed project, to be approved by the Planning Director and all other applicable City departments.*
- *That the submitted architectural/building elevation drawings are approved in concept and that final architectural/building elevation drawings shall be reviewed and approved by the Planning Director prior to the issuance of the building permit.*

While every effort is made to thoroughly vet the submitted plan, please be aware that some changes may be required once a more complete package has been submitted for LUDS permit review.
