Concept Design

The design described below was decided upon based on the guidance and recommendations in the City's Vital Streets Plan and Design Guidelines and Bicycle Action Plan.

The project will change the pavement markings on Ann from two lanes in each direction to one lane in each direction and bicycle lanes on both sides of the street.

The new bicycle lanes will connect to the existing bicycle network on Ann and Turner to the west and the Grand River Edges Trail, Monroe, and Plainfield to the east.

Business Guide

As we work to improve the street, we understand that businesses are sensitive to construction. For this reason, we've created a guide containing information for businesses during construction. Please find this guide on our website or contact us to have a copy sent to you.
