Tentative Construction Schedule 2026

Concept Design

Streets account for the biggest percentage of public space in our City and construction presents an opportunity to change a street's design to serve all users.

The design described below was decided upon based on the guidance and recommendations in the City's Vital Streets Plan and Bicycle Action Plan.

At the meeting, we'll discuss the proposed concept design shown on the back of this letter. The project will:

- Replace the water main.
- Remove and replace the existing road surface.
- Upgrade sidewalks and ramps to meet the Americans with Disabilities Act standards.
- Remove the parking lane on the west side of the street.
- Install bicycle lanes on both sides of the street.
- Replace some driveway approaches as needed.
- Create a left turn lane to enter Grand Rapids Christian High School main entrance.
- Remove most street trees.
- Plant new street trees.
